Notes:

A. Please be advised that in addition to the FEMA flood zone designations noted above the property is subject to zoning regulation under the City's Municipal Code. The Lincoln Municipal Code Section 15.32 establishes the Floodway. The Floodway may significantly restrict the use and development of your property. Therefore, you are strongly encouraged to contact the Community Development Department to verify the zoning of your property.

B. Federal law requires that flood insurance be maintained for any property located within special flood hazard areas (FEMA Flood Zone A, AE, or AO) if a federally backed mortgage is secured for a structure. For more information on flood insurance, contact your insurance agent. Please note that this determination is based on the 100-year flood (a one percent chance of occurring in any given year) as shown on the Lincoln Flood Insurance Rate Map, provided by the Federal Emergency Management Agency. This letter does not make a determination that the referenced property will or will not be free from flooding or damage during such an event. A property not in a special flood hazard area may be damaged by a flood greater than that predicted on the flood insurance rate map or from a local drainage problem not shown on the map. In addition, this letter does not create liability on the part of Lincoln or any officer or employee thereof for damage that results from reliance on this determination.
